

# Biodiversity, Environment Balance is every one`s responsibility

**AUNews,May:** Andhra University Vice Chancellor Prof. P.V.GD Prasad Reddy said that biodiversity and ecological balance is everyone's responsibility. International Biodiversity Day was celebrated under the auspices of the AU Department of Botany. Andhra University Vice Chancellor Prof. P.V.GD Prasad Reddy was the chief guest for this program, which was held at AU Chemistry Department Seminar Hall. On this occasion, he said that the decrease in forest resources and the increase in greenhouse gas emissions are causing environmental threats. In this context, it will have a severe impact on the environment and human life in the future. For this, there is an urgent need for everyone to work in a coordinated

and planned manner for the protection of the environment. Everyone's goal should be to maintain balance in the environment and biodiversity. As nature lovers, it is necessary to do everything possible. Sarvapari service is the service of God. The increase in carbon emissions is also having a severe impact on marine life. Dr. Y. S. R Horticultural University Vice Chancellor Prof. T. Janakiram said that global food security is possible with the conservation of biodiversity. He said that this beautiful for nature and pollution free environment can be provided for future generations only when every living being fulfills its responsibility systematically.

context, Andhra University Vice Chancellor Prasad Reddy along with senior officials of the university congratulated Acharya GM Raju for his services rendered in accordance with the schedule for conducting the examination and declaring the results. This set will meet the eligible candidates for various government jobs as well as notifications.

## Facilities Improved in the Examination Building

AUNews, May: Facilities in the examination building of Andhra University has been improved. The toilets block has been completely modernized. The officials who decided to change them for the sake of convenience started the works from the office of the University Engineers. The toilet is designed like the one in shopping malls and big hotels. More than 300 staff members perform duties in the examination department. Two toilet blocks were constructed for them long back. In the course of time these

were completely destroyed. The officials who are working to modernize every department in the varsity have decided to change the toilets block in the exam department as well. Engineering officials have prepared plans to this extent and started and completed the works three months ago. Newly developed toilets used granite for black wash basins. The flooring is fully tiled. They have installed new commodes and urinal partitions were done. A continuous water supply system, walls, doors and commissures were completely new.

These have been changed at the full level and made available to the employees a few days ago. In the spirit of Nadu-Nedu Project the infrastructure in the University, departments and offices is being developed to a full extent. Andhra University officials who have already changed the toilets and rest-rooms in every department, have focused on the departments where there are more employees. As a part of this, two toilet blocks were completely modernized in the examination department at a cost of Rs.5 lakhs.
