Andhra University, Visakhapatnam, A.P., India.

Dates: 24th & 25th January, 2020

ABOUT THE UNIVERSITY

Andhra University is one amongst the oldest Universities in India, established by the erstwhile British Raj in the year 1926. Several visionaries have laid the foundations for the growth of the University, to name a few – Sir C.R. Reddy (founder Vice-Chancellor), Dr. S. Radha Krishnan (former Vice-Chancellor, who later became the President of India), Sir CV Raman (1st Nobel Laureate in Sciences from India), Srinivasa Iyengar (whose lecture-notes for University of Leeds, U.K, formed the basis for studies on 'Indian Writing in English'), etc. The University has been offering a wide range of graduate, postgraduate and doctoral programs in various disciplines across Arts, Sciences, Law, Pharmacy and Engineering. Since the day of its inception, the University has been keeping up with its tradition of meeting global interface. The natural beauty of the campus with the serene blue waters of the Bay of Bengal on one side and the lush green Kailasagiri Hill on the other beckons academic enthusiasts to the University.

A.U. COLLEGE OF ENGINEERING (A)

Andhra University College of Engineering (A) is one of the constituent colleges of the University, and is the first autonomous college carved in the University. The College is spread over 167 acres and offers 17 UG and 35 PG programmes, besides Research, on par with Institutions worldwide. In a recent survey conducted by Star News, the College has been rated at first position among the State owned Technical Institutions in the Country. The College is supported by Technical Education Quality Improvement Programme (TEQIP), a World Bank funded project, to develop technical education in the country.

ABOUT THE WORKSHOP

In India, 'English' essentially occupies the role of an 'Associate National Language', and had been responsible for opening up several career options. As such, this Workshop - (RE)SEARCHING ENGLISH STUDIES - would dwell upon a range of essential components in the research areas of English Language and Literature.

English Studies have assumed a significant place, in terms of its qualitative escalation, both in India and abroad over a period of time. In this context, it has been observed that many of the young researchers in India are finding it difficult in the identification and publication of their works in *standard* journals. This Workshop aims to address this *challenge*.

Distinguished Professors will share significant insights on research in English studies, besides engaging the participants for proper identification and publication of research works in appropriate Journals.
