OUTCOMES

Students who complete the one-year degree program in the U.S. will qualify for Optional Practical Training (OPT), with the opportunity for a two-year STEM extension to provide work eligibility in the U.S. for a total of three years.

POSSIBLE CAREER PATHS

The MS-Project Management degree complements a variety of undergraduate degrees, allowing you to build on the courses and experience you've already gained in engineering, computer science or business. Recent graduates of the program are working locally and nationally in positions such as these:

- Manufacturing Engineer in commercial aerospace industry
- Materials Management Supervisor for large health care system
- Supply Chain Manager at Amazon
- Marketing and Sales Manager at Walmart, Inc.
- Software Engineer at a leading FinTech company
- IT Project Manager in various industries
- Senior Accountant for a museum
- Branch Service Officer at a bank
- Project Manager at NGOs and UN agencies
- Telecommunication Engineer in various industries
- Consulting positions in numerous fields

CLEMENT BALASUNDARAM

Missouri State University MBA
& Project Management Certificate
Development Product Owner,
USAA Bank Credit Card Experience

"My certificate in Project Management gave me the tools to manage large scale projects from an IT perspective. My time at Missouri State fine-tuned my leadership, problem-solving, and critical thinking skills so I felt prepared to launch my career. Now, as a DPO, I manage large scale software development projects for USAA and I love my job. Missouri State stays close to my heart no matter my job because of the tools I was given to make a difference."

MISSOURI STATE UNIVERSITY

GRADUATE CERTIFICATE IN
PROJECT MANAGEMENT

OVERVIEW

Missouri State University now offers a two-stage process for students from India to complete the Master of Science in Project Management.

The MS-Project Management is an interdisciplinary and applied program that provides STEM (Science, Technology, Engineering, and Mathematics) education to project management professionals from all disciplines. The MS-Project Management is an excellent complement to undergraduate degrees in engineering, technology, and business.

Built upon the widely recognized Project Management Institute's (PMI) Project Management Body of Knowledge (PMBOK®), the program uses a combination of on-campus and distance learning resources to provide individuals with the knowledge and expertise to meet the intense global competition demands.

The MS-Project Management program is accredited by the Project Management Institute's Global Accreditation Center.

STEP 1: Complete the Missouri State University Graduate Certificate in Project Management [online](#)

STEP 2: Complete the Missouri State University MS-Project Management program [on-site](#) in Springfield, Missouri, U.S.A.

ADMISSIONS REQUIREMENTS

CERTIFICATE PROGRAM:

- Open to students in final year of 3- or 4-year undergraduate degree programs or graduates
- Must have a 2.75 minimum GPA in current undergraduate program
- Language proficiency:
 - IELTS 6.0
 - TOEFL 79
 - Duolingo 110
 - LinguSkills Assessment*
- No GRE required
- Statement of Purpose and Professional/Academic Resume
- One letter of reference

MASTER DEGREE:

- 3.0 GPA in Certificate program courses to earn GRE waiver
- If lower than 3.0 GPA, GRE score of 300+ is required

*Administered by the Missouri State University English Language Institute

CERTIFICATE COURSES & SEQUENCE

Certificate courses will be completed remotely in India. Missouri State instructors will host live class sessions and post additional content online.

AUGUST – DECEMBER 2024

TCM 701 - Foundations of Project Management
(3 credit hours)

A comprehensive overview of project management, with introductions to basic techniques, functions, and tools explained and demonstrated.

TCM 710 - Project Leadership & Communications Management
(3 credit hours)

An introduction to the "people skills" necessary to manage projects successfully, including theories and real-life scenarios to practice skills.

JANUARY – MAY 2025

TCM 645 - Program and Portfolio Management
(3 credit hours)

Provides an overview of program and portfolio management with a primary focus on overall success of the organization.

TCM 651 - Project Schedule and Cost Management
(3 credit hours)

The use of schedule and cost management tools and techniques to deliver projects on time and within budget.

MS-PROJECT MANAGEMENT COURSES & SEQUENCE

MS-Project Management courses will be completed on-site in Springfield, Missouri, U.S.A. Continued online study is an alternative option but will not qualify students for OPT.

AUGUST 2024 – MAY 2025

TCM 703 - Project Risk & Quality Management
(3 credit hours)

In-depth analysis of types of risks at each stage of project development, with strategies to recognize, assess, and respond to project risks.

TCM 740 - Agile Management of Innovation and Technology Seminar
(3 credit hours)

Strategic management of technology and innovation in organizations, building upon broad models of technological evolution and organizational change.

TCM 750 - Advanced Project Management
(3 credit hours)

This capstone course builds upon the foundation of previous courses with advanced theory, research, and practice.

Three approved elective courses
(9 credit hours)

Three courses approved by the student's advisor, totaling 9 additional hours of credit.
